## WORK EXPERIENCE

---

### Pedro Tech

#### Internship

- Contributed to the development of five scalable full-stack web applications.
- Leveraged React for dynamic front-end development and Node.js with MongoDB for the backend.
- Collaborated with cross-functional teams to implement user-friendly interfaces.
- Optimized application performance and ensured seamless integration between front and back-end systems.
- Gained proficiency in building robust, maintainable, and high-performance applications.

## EDUCATION

---

### Addis Ababa University

#### Software Engineering

5 kilo Campus

Graduation Date: Date

## PROJECT EXPERIENCE

---

### Code Alpha Bootcamp

#### Participant

- Completed an intensive full-stack development curriculum.
- Built dynamic, high-performance web applications using React, Node.js, and MongoDB.
- Worked on multiple full-stack projects, responsible for both front-end and back-end development.
- Gained hands-on experience with JavaScript, Express.js, and MongoDB to build RESTful APIs.
- Emphasized real-world problem-solving, debugging, and agile development practices.

### Evangadi Bootcamp

#### Participant

- Participated in a comprehensive full-stack development program.
- Focused on building real-world applications using React, Node.js, and MongoDB.
- Gained practical experience in developing responsive front-end interfaces.
- Designed RESTful APIs and managed data with MongoDB.
- Exposure to Agile methodologies, version control with Git, and best practices for application scalability.
